

Amniflex Hose Handling Guide

Amniflex hose is manufactured to the highest technical standards to meet the most exacting service conditions. To maximize the service life of these quality hoses, we recommend that you follow these simple guidelines for either dock or hose tower operations.

**Amniflex hoses are electrically continuous end to end thorough both inner and outer wires.
Against specific demand, insulating flanges are also available.**

All information in this document is without any obligation, specifications subject to change without any notice.
