

## Wireflex+

Commercial and industrial vacuum hose

### MEDIA

### Description

Wireflex+ is made from a double ply construction incorporating a high carbon steel wire helix with a flexible PVC liner that encompasses 18x longitudinal and 2x radial reinforcing yards for additional strength and elongation resistance. The construction offers a very high resistance to these factors, outstanding flexibility and small bend radius.

### APPLICATIONS

- Industrial Vacuum
- Wet-Dry vacuum
- Dust Collection
- Commercial Vacuum
- Power Tools

### Size

- ID: 32,2 mm
- Max.length: 15 m
- Wall thickness: 0,7 mm

### Pressure

- Working pressure: 1,025 bar
- Vacuum rating: 0,43 bar

### Temperature resistance

- Material: PVC
- Minimum: -5 °C
- Maximum: 80 °C

Further diameters upon request.
